Software Engineering Student | Full-Stack Development | C++, JavaScript, TypeScript, Python

Education

Western Governors University
B.S. in Software Engineering

Online
Expected Aug 2027

Palomar College
A.S. in Computer Science

San Marcos, CA
July 2026

- **GPA: 4.0 (Core Coursework)**
- Certificate of Achievement in Computer Science

Technical Skills

Languages: C++, C, C#, Python, Java, JavaScript, TypeScript, SQL, ARM Assembly

Frameworks & Tools: React, Next.js, Node.js, PostgreSQL, Supabase, Vercel, Git, Jest, Playwright, Vitest

Concepts: Full-Stack Development, REST APIs, Object-Oriented Programming, Data Structures, Algorithms, Linux, Embedded Systems

Relevant Coursework

Data Structures (A) • **C++ & Object-Oriented Programming (A)** • **Machine Org. & Assembly (A)**
Intro to AI (A) • **Web Development (A)**

Projects

yet-another-image-converter

2026

JavaScript, Chrome Extensions (MV3), Canvas API, Playwright, Vitest

- Built a Manifest V3 Chrome extension that converts JPEG, PNG, WebP, AVIF, BMP, and ICO images from a right-click workflow.
- Used Offscreen Canvas to isolate conversion work; added Playwright end-to-end and Vitest unit coverage.

slot_machine_api

2025

TypeScript, REST API, Vercel Functions, Supabase, PostgreSQL, Jest

- Implemented a TypeScript REST API with Vercel Functions and Supabase PostgreSQL, using generated type-safe schema bindings.
- Added Jest coverage for payouts and session boundaries, plus an offline adapter for CI without cloud dependencies.

portfolio-app

2026

Next.js, TypeScript, React, Node.js, WebGL/GLSL, Tailwind CSS, Framer Motion

- Built a responsive Next.js and React portfolio with WebGL/GLSL visuals, Framer Motion transitions, and deep-linked project modals.
- Integrated a live slot machine demo with the slot_machine_api backend through Next.js Server Actions.

arm-assembly-robot-follower

2024

ARM Assembly, C, Raspberry Pi, Linux, wiringPi, PCA9685

- Developed a leader-follower robot on Raspberry Pi, written primarily in ARM assembly with C as a hardware abstraction layer.
- Implemented ultrasonic sensing and I²C motor control with a PCA9685 PWM driver and integer-based steering algorithm.

Work Experience

Harrah's Resort & Casino
Table Games Dealer

Valley Center, CA
2019 – Present

- Execute regulated financial procedures accurately while explaining complex rules clearly to diverse customers.

Harrah's Resort & Casino – Rita's Cantina
Server

Funner, CA
2018 – 2019

- Ranked among the restaurant's top three earners while processing orders and payments through Agilysys POS.

Protection One

West Palm Beach, FL

Commercial Installation Technician I

2015 – 2016

- Configured commercial TCP/IP networking and security infrastructure; diagnosed hardware, electrical, and integration issues.
